Step 1. Make the Salt dough Pour the salt, flour and water into a large mixing bowl and stir into a doughy but not too sticky texture.
(if adding food colouring add a few drops to the water before you mix it in)

Step 2. Scoop onto table and split into different balls depending on how many types of herbs you have!

Step 3. Chop or tear the herbs and mix them in with each ball of dough. How do they smell?

Step 4. Lay out your herby balls of saltdough and get ready to shape them into Herby Heads!

Keep some un-chopped herbs aside for extra decoration
